Experiences, information and learning

The library is a central meeting place in our community. It functions as a combined public and school library and is situated immediately adjacent to Nossebro School. The School Board is responsible for cultural and library services. We have a broad and varied selection. Talk with us at the library, and we will do our best to help you find what you are looking for. Choose among books, audio books, daily newspapers, magazines, CDs and movies. We offer resources for genealogy research and a number of data bases for information searches.

Book café, story time, snuggle twilight, ginger cookie building contest and The Picture of the Month are permanent features in our activities. In addition, various programs and exhibits are organized by us or by one of the many clubs active in the community.

There is also a small library branch in the care facility's day center adjacent to our cafeteria. Everyone is welcome to read newspapers and magazines here, every day during the week.

When the library is closed, you can always visit our home page and see what is happening. Here you can browse the complete selection in the library catalog. If you have a PIN-code you can even manage certain library functions via the web. You are always welcome to suggest purchases, either through our home page or to us at the library.

Meeting place

The library is a meeting place for everybody. There are facilities for smaller gatherings, but you can also find your own nook where you can relax for a few minutes.

Studies

At the library you can pursue your studies and access Internet-connected computers free of charge.

We can also help you find course literature and other information.

Love of reading

Here you can browse through our extensive offerings. There is something for all ages and interests – both facts and fiction!

We will be happy to give you advice about books worth reading, and you are welcome to visit our book café.

Snuggle twilight

In darkest November, old and young alike gather to listen to stories from the Nordic literature.

At the same time a set evening, the lights are turned off and in the glow of candlelight the story begins.
